Jeff:

My issue is that Derrick was overseeing the site for a Scientist 2 (Daniel) for the benefit of Weston. I did not really need a Scientist 4 level overseeing the site. The logbook shows the following for Derrick:

2/2: Derrick on-site (1045 - 1515(aprox)) = 4 hrs

2/3: Derrick on-site (800 - 1715) = 8.75 hrs

2/4: Derrick on-site (0800 - 1630) = 8 hrs

2/5: Derrick on-site (0800 - 1700) = 8.5 hrs

2/6: Derrick on-site (0800 - 1700) = 8.5 hrs

I would rather have Derrick be charged at a Scientist 2 rate for the hours he worked from 2/3 - 2/6. I don't think I should pay for 2/2 since this was a day he came out to get up to speed on the activities so that Daniel could go to a Weston training at the benefit of Weston and I already got a full day charge for Daniel.

Also, I had a charge from Daniel for 2/3 and 2/4 for 0.5 hrs each of these days due to discussions Daniel had with Derrick concerning the site on those days. I don't think I should be charged for that time as well since I would not have had those charges if Daniel was there. I don't have a problem paying for the POV mileage for Derrick for 2/3 - 2/6 and not charged for the truck for 2/3 - 2/6. The mileage chargeable would be (mileage from office/home to site (whichever is shorter), mileage while on-site, mileage from site to office/home (whichever is shorter)).

You can put a comment in the 1900-55 that indicates that "Derrick Cobb replaced Daniel Tighe for the period of 2/3 -6 at the benefit of Weston Solutions and therefore Derrick will be mapped at the rate of Daniel Tighe for this period"

The above should not impact the rate for the actual rate for Derrick if Scientist 4 Level work is needed for the site.

I hope you understand. Call me if we need to discuss further.

Thanks

Subject: CES Labor Rates

Gary,

Here's what I was thinking when we had Derrick sit the site while Daniel attended training in Dallas. Daniel normally charges around 55 hrs/wk. Derrick was on-site for 36 hours and was not on-site Monday if I remember correctly. The effort or dollars as you can see are about the same (\$83 difference).

9855426

Tighe – Sci 2 rate of \$76.10 x 55 hrs/wk = \$4185.50

Cobb – Sci 4 rate of \$118.59 x 36 hrs/wk = \$4269.24

One more item regarding the rental truck. The project should not be charged four days at \$55/day or \$220 as Derrick used his POV. Would we be able to charge mileage for that time? The mileage total for the four days would be about \$70.00, a savings to the project of \$150.00.

Let me know how you would like us to proceed. I should have communicated this to you myself rather than after the fact. My bad.

Thanks!

Jeff Criner
